52 custom game cards
Instructions

OBJECT OF THE GAME

The last player with any remaining cards wins.

GAME PLAY

Shuffle the deck. Deal cards face-down to each player, as equally as possible to create individual piles.

The player on the dealer's left begins the game by flipping the top card from his pile away from him to create a central pile that all the players can reach.

Play continues clockwise with each player flipping a card until an opportunity to SLAP presents itself.

THREE WAYS TO SLAP!

There are three ways to slap the central pile & win the round.

#1 SLAPBURGER

When a Slapburger card is laid on the central pile, the first person to slap their hand on the card and say "Slapburger!" takes the pile.

#2 DOUBLE DECKER

When two cards of the same kind (2 onion cards for example) are laid on top of the central pile, the first person to slap their hand on the card and say "Double Decker!" takes the pile.

#3 SANDWICH

In order to create a "Sandwich" slap, there must be two bread cards laid down with any amount of ingredient cards in between. When the second bread card is laid down , the first player to slap the card and say "Sandwich!" takes the pile.

FALSE SMACK

A player smacking any card that does not follow the three ways mentioned above (a "false smack") must forfeit one card & place it face-up at the bottom of the centrai pile.

OUT OF CARDS

Players with no cards have lost the game.

END OF THE GAME

The last player with remaining cards is declared to be the winner of the game.
